

unequal environmental, social and economic outcomes. What is more, students study Superpowers, and how they can develop by a number of characteristics. The pattern of dominance has changed over time. Superpowers and emerging superpowers have a very significant impact on the global economy, global politics and the environment. The spheres of influence between these powers are frequently contested, resulting in geopolitical implications.

What are the HW Expectations?

At A-Level, homework will roughly be 2 hours a week. For homework, students will be set a range of activities from researching content for the next lesson, completing activities to consolidate learning and doing past examination papers/examination questions. Students may also have revision that purely focuses around creating revision resources and learning how to revise properly.

How will I be assessed?

Students will be assessed through timed in class essays, extended answers in their books, knowledge recall, end of unit milestone tests and Pre Public Examinations.

Students will sit 3 examinations at the end of the summer (80% of their final grade) and will produce a piece of coursework based upon fieldwork (20% of their final grade).

What equipment/books do I need to be successful?

Students will need a calculator and Maths equipment to help them be successful in A-Level Geography.

What revision guides/books will support progress?

We strongly advise students to buy the Examination endorsed revision guide for Edexcel Geography from My Revision Notes.

What other opportunities exist outside the classroom?

At A-Level, students are taken on a physical and human geography field trip to collect data for their coursework such as Stratford in London to assess the impact of redeveloping areas such as the docklands.
